Transport for Packages, Totes and Bins

Fetch100 Shelf robots set the standard for commercial-ready AMRs transporting material in busy warehouse and manufacturing environments. The most advanced collaborative AMRs, like the Zebra Fetch100 Shelf robots, have the ability to plan optimal point-to-point travel while navigating around obstacles. Fetch100 Shelf robots have numerous additional enhancements to safely avoid moving obstacles such as forklifts and carts. Integrated touchscreens and adjustable shelving make Fetch100 Shelf robots an easy and flexible way to offload material transport tasks.
